Journey Visualisation in the Satellic Road User Portal

The journey visualisation offers a deeper insight into a truck's journey: you can see where a specific truck has been driving on any given day.

The journey is displayed precisely on an interactive map using data points that are registered every 30 seconds and that are sent to our central servers every 5 minutes. A line is then drawn to link all the different data points with each other and this line is displayed on the interactive map.

The raw position data (KML file) you will see can be downloaded. Thanks to the KML file, you can import and rework the data for a specific period of multiple days in your own geolocation tool.

For privacy reasons, you have to manually enable this feature (per vehicle) on the Road User Portal to be able to use it. We are only able to register and to send your geolocation data once you have activated the journey visualisation. Only then will you be able to follow your vehicles.

Step 1: Log in to the Road User Portal and select the blue "VEHICLES" circle.

The screenshot displays the Satellic Road User Portal dashboard. At the top, there is a green navigation bar with links for "My Menu", "My Vehicles & OBUs", and "My Invoices". Below this, a white header area contains the text "Welcome to the Satellic Road User Portal" and "Here you get a quick overview of the status of your account". The main content area is titled "My Account" and features four circular statistics: "7 Vehicles" (highlighted in blue), "3 OBUs", "0 Decoupled OBUs", and "2 Low balance". Each statistic has a corresponding action button below it: "REGISTER VEHICLE" (green), "ORDER AN OBU" (green), "DECOUPLE OBU" (green), and "COUPLE OBU" (grey).

Category	Count	Action
Vehicles	7	REGISTER VEHICLE
OBUs	3	ORDER AN OBU
Decoupled OBUs	0	DECOUPLE OBU
Low balance	2	COUPLE OBU

Step 2: Click on the row corresponding to the vehicle for which you want to visualise the journey.

Your Vehicles

Click on a row to navigate to the vehicle.

search by OBU ID (S/N) or vehicle

Licence plate number	OBU ID (S/N)	OBU status	OBU payment scheme	OBU balance
01 ANDTR 01	000410001759884	Activation requested	Pre-paid	EUR 0.00
01 ANDTR 02				
01 ANDTR 05				
01 ANDTR 06				
1 SARTR 101	000410001601105	Update in progress	Pre-paid	EUR 0.00

Click on this row to show the details of the vehicle (01 ANDTR 02).

Step 3: Click on “JOURNEY VISUALISATION” to open the journey visualisation screen.

WELCOME, TESTUS TESTATIUS (1000502) [MY ACCOUNT](#) [EN](#)

Step 5. Click on the “ACTIVATE” button to switch the Journey visualisation service on.

You also have the possibility to delete all historical data by pressing the “DELETE DATA” button.

 **Manage Journey Data for Vehicle: DD MCGN 1008** [Back to Vehicle](#)

Here you can manage data regarding the journeys of vehicle: DD MCGN 1008

Journey Recording
Recording of journey data for visualisation is currently inactive ⓘ

ACTIVATE

Delete Journey Data
All journey data for this vehicle can be removed.

DELETE DATA

BACK

Step 6: Click “CONFIRM” if you want to activate recording of the journey data. If active, all future journeys will be recorded and can be visualized on the journey visualisation page later on.

Satellic  WELCOME, ANDREASTRUND1 (1004359) [MY ACCOUNT](#) EN

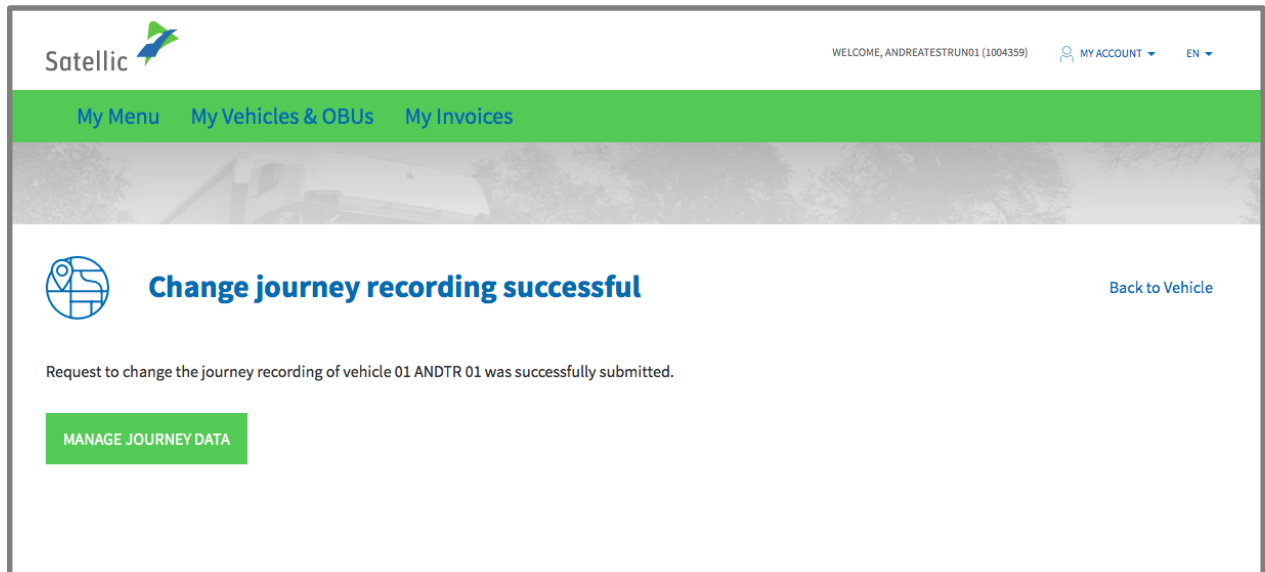

[My Menu](#) [My Vehicles & OBUs](#) [My Invoices](#)

 **Activate recording of journey data**

Are you sure you want to activate recording of journey data for vehicle 01 ANDTR 01? If active, all future journeys will be recorded and can be visualized on the journey visualisation page lateron.

CONFIRM **CANCEL**

Step 7: The request to change the journey recording of the vehicle was successfully submitted. As from this moment onwards, your journeys will be recorded in the future. You can stop the service at any given time.

The screenshot displays the Satellic user interface. At the top left is the Satellic logo. The top right shows a welcome message: "WELCOME, ANDREASTRUN01 (1004359)" and a "MY ACCOUNT" dropdown menu with "EN" as a language option. Below this is a green navigation bar with links for "My Menu", "My Vehicles & OBUs", and "My Invoices". The main content area features a grey header image of a vehicle. Below the image is a blue globe icon with a location pin, followed by the heading "Change journey recording successful" and a "Back to Vehicle" link. A message states: "Request to change the journey recording of vehicle 01 ANDTR 01 was successfully submitted." A green button labeled "MANAGE JOURNEY DATA" is positioned below the message.
